

Resultado do Desafio

12 / 12

Acertos por palavra:

✓ array → Vetor

Resultado do Quiz

20 / 20

Respostas corretas:

✓ Q1 - Correta

The screenshot shows the Apache NetBeans IDE interface. The main editor displays a Java file named `DesafioNotas.java` with the following code:

```
1 package tema06;
2
3 public class DesafioNotas {
4
5     public static void main(String[] args) {
6
7         int[][] numeros = {
8             {1, 2, 3, 4, 5}
9         };
10
11         int soma = 0;
12
13         for (int i = 0; i < numeros.length; i++) {
14             for (int j = 0; j < numeros[i].length; j++) {
15                 soma += numeros[i][j];
16             }
17         }
18
19         System.out.println("Soma de todos os elementos: " + soma);
20     }
21 }
```

The left sidebar shows a project tree with various folders and files, including `ProjetoSQLite2` and `Tema06Vetores2`. The bottom output window, titled "Output - Tema06Vetores2 (run)", shows the execution results:

```
run:
Soma de todos os elementos: 15
BUILD SUCCESSFUL (total time: 1 second)
```

The Windows taskbar at the bottom shows the system clock as 16:42 on 22/06/2026, along with other open applications like Chrome and a terminal.
